

# STIRLING<sup>®</sup>

## LCD STEAM IRON

2400W Power  
Anti-drip and Anti-scale

### Features:

#### Burst of Steam and Water Spray

Stubborn wrinkles are easily removed with a burst of steam or spray of water

#### Electronic LCD Display

With electronic steam and temperature control and language alternatives

#### 230ml Water Tank

Large capacity tank and beaker for easy filling

#### Double Ceramic Coated Soleplate

Glides smoothly over your garments

# Quick Start:

Read the full instruction manual before use. This Quick Start Guide only gives basic usage instructions.

## Usage Instructions

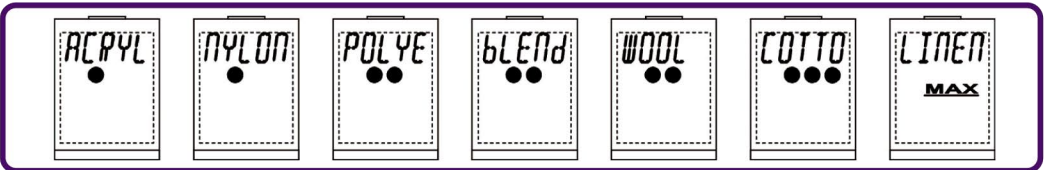

**Setting up:** With the iron disconnected and, using a beaker, fill the tank with water up to the MAX level marking. Plug the iron in and press the TEMP Up/Power button to turn on the iron, then use the TEMP Up or Down buttons to set the required temperature.

**Steam ironing:** Press the steam on/off button for steam ironing and when the symbol stops blinking, the iron is ready for steam ironing. To help remove stubborn wrinkles during ironing, press the burst of steam or the spray button.

**Afterwards:** To switch off the iron, press and hold the TEMP Up button for two seconds: the LCD will go blank with a beep. Disconnect. When the iron has cooled down completely, open the water inlet cover, hold the iron upside down and shake it gently to remove any remaining water. Store it vertically.

## Garment labels

Read the garment labels and follow the manufacturer's ironing instructions. The symbols used stand for the following fabric types:

Model Number	TB-2190
Colour	Purple
Power	2400W
Water Tank Capacity	230ml
Warranty	3 Years
