

STIRLING®

120L BAR FRIDGE

Adjustable Glass Shelves
Reversible Hinge Door

Features:

Glass Shelves
The glass shelves are adjustable for easy cleaning and rearrangement of the fridge storage space.

Vegetable Crisper
A crisper drawer provides perfect storage for fruit and vegetables.

Adjustable Temperature
The fridge temperature is easily adjustable.

Levelling Feet
Adjustable feet enable level placement on uneven floors.

Quick Set-Up:

- Before installing your new upright bar fridge, read all instructions in the supplied instruction manual. This Quick Set-Up guide only covers basic points.
- This appliance is designed to be freestanding only and should not be recessed or built in.
- Place the bar fridge on a sturdy, level floor, leaving at least 12cm space at the back and sides for air circulation.
- Adjust the levelling legs at the bottom of the unit, if required.
- Before plugging in your new bar fridge, let it stand upright for approximately 2 hours.
- Plug the unit in and allow it cool down for 2 to 3 hours before placing food inside.

Temperature control

To adjust the temperature in the fridge, turn the refrigerator temperature control knob clockwise towards 7 (maximum coldness) to lower the temperature and anticlockwise towards 1 (minimum coldness) to increase the temperature inside the fridge.

A mid setting should be appropriate for normal usage conditions.

Food storage

- The shelves in the fresh food compartment, crisper drawer and door racks are suitable for short-term storage of fresh food.
- The covered chiller compartment is designed for short-term storage of ice cubes or smaller food packages that are already frozen.

The temperature in this compartment does not get cold enough to freeze food safely for long periods of time.

Model Number	TR-15Q
Colour	White
Net Capacity	115L
Gross Capacity	120L
Warranty	3 Years
