Control Panel:

Read the full instruction manual thoroughly before use. This Quick Start Guide only contains brief operating instructions.

Menu Action Screen: Cooking time, power level, action indicators and clock time are displayed.

Power Level: Press this button repeatedly to set the microwave cooking power level.

Grill: Press this button to set a grill cooking program.

Combination: Press this button to select one of two combination settings for cooking with combined microwave and grill power.

Auto Defrost: Press this button to defrost food based on the weight entered.

Weight Adjust: After choosing an auto cook menu, press this button to specify food weights or number of servings.

Clock: Press this button to start setting the oven clock; press it again to confirm the set time.

Preset: Press this button to set the preset timer, which allows you to put food into the oven and program it to start cooking at a later time.

Pause/Cancel: Press this button to cancel a setting or reset the oven before setting a cooking program. Press once to stop cooking temporarily, press twice to cancel cooking altogether. This button is also used for setting the child lock.

Menu/Time (Dial): Turn the dial to set the oven clock time and input a cooking time, or to select an Auto Cook Menu.

Start/Quick Start (◆ Button): Press this button to start a cooking program. Press it repeatedly to set a quick start cooking time and start cooking immediately at full power.
