Stylish backlit hidden display panel on indoor unit.

Inverter Technology
Inverter technology for energy efficient, continuously regulated temperature control.

Quick Start Guide

Read the full instruction manual thoroughly before use. It contains comprehensive usage instructions and important safety advice. This Quick Start Guide only contains a description of the remote control buttons and functions.

Remote Control:

No	Button	Function
1	CLOCK	Press this button to set the time. When the time is flashing, press ▲ or ▼ to adjust the time. Every press equals one minute, or press and hold for rapid adjustment. Press CLOCK again once the time has been set.
2	▼ DOWN	Decrease the temperature or time by 1 unit.
3	ON/OFF	Switch the unit on and off.
4	FAN	Select the fan speed.
5	TIMER	Set to switch on and off automatically.
6	SLEEP	Activate the sleep function.
7	MODE	Select the mode of operation.
8	SUPER/TURBO	In cooling mode, produce maximum cooling performance (16°C). In heating mode, produce maximum heating performance (31°C).
9	ECO	In cooling mode, the room temperature will be allowed to rise 2°C above the set temperature before cooling restarts. In heating mode, the temperature will be allowed to fall 2°C below the set temperature before heating restarts.
10	SWING	Activate or deactivate movement of the deflectors.
11	▲ UP	Increase the temperature or time by 1 unit.
12	DISPLAY	Switch on/off the LED display (if present).

Note:

Every time you press a button, the unit confirms with a beep the correct reception of each action.

Model Number	STR-TCLAC12
Colour	White
Cooling Power	3.3kW
Heating Power	3.3kW
Warranty	5 Year In Home
Version	QSG-V1.0
