

STIRLING®

291L TOP MOUNT REFRIGERATOR

Frost-Free
Mechanical Temperature Control

Features:

291L Capacity
Spacious fridge and freezer compartments with configurable shelves and designated storage space for cans and large bottles.

Full-Size Vegetable Crisper
A full-size crisper drawer with humidity control provides perfect storage conditions for fruit and vegetables.

Ice Cube Maker
The freezer compartment has a double tray ice cube maker for easy production and release of ice cubes.

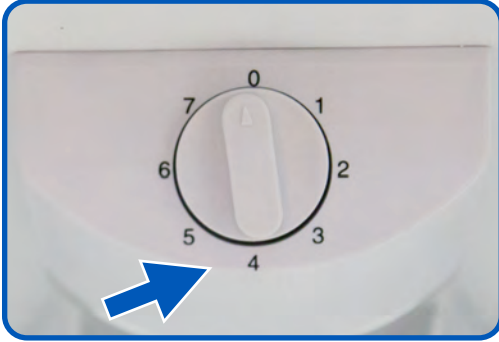

Frost-Free
A frost-free cooling system prevents the build-up of ice so you do not need to defrost the appliance manually.

Quick Set Up: Adjusting the temperature inside the fridge and freezer compartments.

This refrigerator has one temperature control that regulates the temperature in the fridge and freezer compartments. It is located inside the fridge compartment, at the top (pictured below left). The temperature settings range from 0 (off) to 7 (coldest): the larger the number, the lower the interior temperature.

A mid setting of 4 is recommended for normal usage conditions.

Fridge compartment

To cool down the fridge compartment fast, set the air volume control (pictured top right) to "high". This is recommended after you have added large amounts of unchilled food to the fridge.

Freezer compartment

To cool down the freezer compartment fast, set the air volume control to "low". This may be useful after you have added a large amount of unfrozen goods to the freezer.

Model Number	BCD-280WV
Colour	White
Freezer Capacity	70L
Fridge Capacity	210L
Warranty	3 Years
